Experience

7 years

Product Manager – Post Order

Apr 2025- Present

Leading post-order platform initiatives across procurement, and Seller Portal, with focus on automation and seller self-serviceability

- Designed intelligent *POD collection journeys* across WhatsApp/email using NLP-based email response parsing, increasing **adoption from 7% to 47%** and **saving 260+ CX man-hours**
- Shipped **ML-driven invoice and order documents ingestion** and matching feature leveraging **OCR and confidence-based** line-item mapping; processing **200+ invoices/day** and reducing manual reconciliation effort by more than **50%**
- Launched Seller Managed Inventory & Price Upload module with batch-level traceability and real-time visibility across RFQ and order workflows driving **USD 350K monthly GMV across 1,100+ private label SKUs** within 2 months of launch
- Launched AI driven seller due diligence engine flagging high-risk sellers across 9 risk categories, identifying, and **flagging around 15% of newly onboarded sellers** per month, enabling systematic compliance at scale
- Owned and delivered end to end integration of *warehouse management system (WMS)* covering inward, outward, GRN, bin movements and real time sync. Enabling **USD 50K+ in monthly revenue** from warehouse operations
- Built **import order** platform for offshore sourcing and fulfilling products from sellers. Facilitating orders worth **USD 1M+ By GMV** in last 6 months

Product Manager – Vendor Management & Order Management Platform

Apr 2022- Apr 2025

Moglix

Owned supply and seller platforms and engineered order management automation.

- Scaled order creation automation **from 22% to 70%** by building rule engines for supplier selection, pricing, and delivery dates eliminating **1,600+ manual hours/month** across ops teams
- Introduced the first-ever “*One-Touch Supplier Order Release*” feature at Moglix, reducing average order release TAT *from 8 minutes to under 1 minute* and **saving 200+ man-hours** per month. Achieved a flawless deployment with zero issues reported since release.
- Launched *Open Purchase Order (Open PO)* functionality for strategic customers. Improved process flexibility and removed redundancy to punch subsequent SPOs. **40 manhours** saving, doubling **GMV to USD 700K/month**
- Rolled out *Late Delivery Charge Automation* flow, generating **USD 130K+ in additional revenue over 12 months** through precise application of late delivery penalty.
- Created supplier risk profiling engine using analytical scoring (behaviour, GST history, OTIF, past defaults) to improve supplier recommendations and **increase OTIF by 15%**
- Bridged critical gaps in the user journey and launched supplier awareness programs, driving a **55% increase in user adoption** through targeted engagement and training.
- Designed and implemented a **multi-channel communication system** across Email, WhatsApp, SMS, and Push, creating user journeys and trigger-based messages to enhance engagement and responsiveness.
- Enhanced supplier inventory management by introducing data-driven insights, achieving a **40% increase in usage**, and generating an **additional USD 2K** in revenue per month

Associate Product Manager – Consumer Products Vertical (B2C)

Dec 2021 – Apr 2022

Pristyn Care

Worked across app, chatbot, and IVR

- Conceptualized and launched features to increase user acquisition and create UGC on **Pristyn Care App**. App rating moved from 3.4 to 4.4. Cumulative user ratings increased by 4X in 3 months.
- Implemented and integrated website **chatbot** on webpages and deployed central **IVR**. **65% increase** in leads conversion
- Managed end-to-end adoption and tracking of Consumer Products Vertical (B2C), app, IVR and Chatbots
- Build Covid Vaccination Slot booking and Rt-PCR test booking module in Pristyn Care App. Reached **2X growth in daily app installs** and **100% increase in DAU MoM**.

Manager – Business Analytics

Nov 2020 – Dec 2021

LeasePlan India

- Built process-automation tools for auctions, consolidating payment & collection operations and saving **150+ man-hours/month**.
- Utilized data-driven techniques to optimize the annual and monthly planning and forecasting of used car sales, resulting in a cash flow **variance of less than 5%** from the forecasted values

Capital Trust Limited

Business Loan Product Integration

- Streamlined product delivery of MBL (Micro Business Loans), by ideating and releasing product dashboard after studying **user journey**. Led to improved arrears **collections by 20%**
- Improved **TAT** for collection remittance to the partner bank. **Achieved ≈ 95%** remittance within 3 days of receiving by integrating and monitoring client cash cycle with product portal and dashboard
- Digitized foreclosure process to product portal and reduced TAT for timely intimation of foreclosure cases from **15 days to ≤1 day**
- Led digitization of repayment from cash to digital through ECS mandate. Significantly reduced the number of cheques for repayment from **18k to less than 900** in 3 months
- Designed and improved the digital receipt (DR) issuing process and interface of Capital Sales app after **understanding customer behavior and journey**. Cases of the wrong receipt issued by collection agents **dropped by close to 65%**
